News from Havana. ABBIVAL OF THE BLACK WARRIOR—POLITICS DULL -SAILING OF THE UNITED STATES STEAMER WA

THE WITCH—A NEW STRAM LINE TO SPAIN.
The United States steamer Black Warrior, J. W. Sm sommander, from New Orleans the 27th, and Havans the evening of the 20th, has arrived at this port.

No news of political or commercial interest to report.

The United States steamer Water Witch sailed from Ha-

vans on the 30th ultimo for Norfolk. At the same time the Spanish steamer Mexico (tate United States) sailed or Cadiz, the pioneer of a new line between the island the mother country. She carried out a large number of

for Cadiz, the pioneer of a new line between the island the mother country. She carried out a large number of passengers.

The city is still healthy.
Charles H. Turner, of Baltimore, an ordinary seeman on board the Water Witch, died on the 20th of March, and it was ordered by the officers and his brother sallors that a marble slab, costing sixty two dellars, should be erected to his memory. The slab will be put up under the care of United states Cossai Robertson. He was interred in a private burial place.

The event of the birth of the imperial prince of France was celebrated by a grand ball, given at the Consular residence, and by salutes of one hundred and one guns from the French and Sparish war vessels in port. These were replied to by a discharge of one hundred and one guns from the waits at the Ponta Gate and the Castle. The efficial ball was a very brillian: affair. Paul Julien and other musical celebrities were in artendance.

On Saturday, April 26, the remains of Donna Manuela Luz, mether to the distingaished Cuban sage, Don José de la Luz, were conveyen to the Campo Santo. This was the largest innernal ever witnessed in Havana. There were about one hundred and fifty carriages. The body was borne on the shoulders of negree, dressed in liveries, and wearing grand chapener. Six young last held the cords of the codin, and all the guests, belonging to the better clars of fac city, accompanied the body on foot as 'ar as the Punta gate. There they all entered their carriages, and rode out to the burial ground. Dr. Ramon Zambrana, rector of the Royal University, and Dr. Ruiz, proneunced cicquent discourses on the virtues of the venerate mother of the greatest pulicaopher and sage that Guos ever produced.

The Jerun college has now ever two hundred stu-

sage that Cuca ever produced.

The Jesuit college has now ever two hundred students within it awals, and convents and missions were about to be established under the patronage of the Queen of Spain. of Spain.

General Couchs had visited the springs of Vento, from which source it is proposed to supp y Havana with

wa'er.

American revolvers had been supplied to the police, and were to be furnished to the mea on board the war

and were to a turns of the African apprentice; was still the topic of conversation in all circles. Many are in favor of it and many opposed to the whole scheme.

One of our correspondents says:—Our latest advices from Nicarsgua represent Walker to be in a bad fix. The Spanish papers give us an editorial about the results of the present campaign, and augur the speedy extermination of the filtusters.

The Attempt to Assassinate Sheriff Jones, of Kansas—Aigger Worshippers' Sympatay.

[From the St. Louis Repuditsan, May 1.]

A vast smount of virtuous indignation is expended in the proceedings of a meeing of citizens of Lavrence, Kanses Territory, glowing out of the base attempt of a citizen of that place to murder S. J. Jones, the Sheriff of Douglas county. The meeting was held on the 24th, and the two men who have been most instrumental in stirring up had blood and civil war in that Territory—Reeder and Robinson—were the most conspicuous actors in it. Reeder was the chairman of the meeting, and in a long speech, while hypocritally deploring the act by which the life of a fellow being was sought to be taken, did not heeitate to address to the people such arguments as were likely to provide further misconfer and other outrages.

which he life of a fellow being was sought to be taken, did not hesitate to address to the people such argumenta as were likely to provoke further miscales and other outrages.

The matter which seemed to be uppermost with him was, that this attempt at assassination might injure the cause in which he and they were engaged. He ailuded to the positions assumed by his party in the Territory; to the resolutions adopted at the Big Springs; to the doctrine enuncitate there. 'that they would never submit to the laws of the Territory as a permanent insituation; but would set themselves about obtaining remedies for the purpose of getting rid of them; that the ballot box and the courts and all peaceful remedies should be recorted to, and after these remedies had been exhausted, and they had no choice but to sit down under these laws permanently, or resist them by force, they would resist them without regard to consequences. The people of this town have been going on quietly, refusing to recognise the ferritorial authorities, avoiding a condict with the authorities of the United States, which must be destructive, thus keeping precisely in the right path, and in a position where your friends at home and abroad could defend and justify you. The courts have been sought, and I am torry to say that little hope of redress is to be found there. The Sheriffs of the counties are partisans, carefully selected for their work, and they select the jurcra, who are partisans. The conduct of any of these judges, and the lengths they are disposed to go for the purpose of pleasing their own friends, needs no comment from me. You all know what took piace in the case of McCrea. Thus has been demonstrated that the courts of this Territory are hopeless places in which to obtain anything like law or justine."

He spoke of the presence of the committee appointed by Mr. Speaker flanks to inquire into what had taken place in hansas, and then he broke out:—In the midst of this pregress, where everything was ging on smoothly, saccably and satisfactor

cased or the cimmusity were accused, who was almost unprotected, and who, therefore, should have been treated with more of current and many adminests." He proposed the fillewing resolutions:—

Escolved, That the attempt mide in our town has evening upon the size of S. J. Jones. New, whits calming to act as the Shadiff of the control, what he toolsted act of some madely has and community, and unrestandant of your portion of them.

Resolved. That me opin in of this community it was a cowardly and streedous durage upon Mr. Jones—an insulin and injury to the public south and reputs into four town, and a Resolved. That me opin in of this community it was a cowardly and streedous durage upon Mr. Jones—an insulin and injury to the public south and reputs into four town, and a Resolved. That move the surface and out circums, if he athex could have been increed on considered at all proposible, we would have been foreseen or considered at all proposible, we would have been foreseen or considered at all proposible, we would have been foreseen or considered at all proposible, we would have been foreseen for considered at all proposible, we would have been foreseen or considered at all proposible, we would have been foreseen or considered at all proposible, we would missed. The strength of this deed is unknown; and if two on to the we would missed and the account of the strength o

FINANCIAL AND COMMERCIAL.

MONEY MARKET.

MONDAY, May 5-6 P. M. Mondar, May 5-6 P. M.
The stock market was very active this morning at the opening, and continued so to the close. Prices were unsettled, and neither of the two great speculative parties predominated. All the leading railroad stocks were in demand at current rates, and the sales, buyer's option, show that a large number of operators have confidence in the future. At the first board Ill'nois Central bonds dvanced % per cent; Canton Company, %; Galena and Chicago, %; Minhigan Central, %; Michigan Southern, %; Chicago and Rock Island, %. Eric Railroad declined % per cent; Reading, %. Harlem old stock sold down to 17% per cent. There was a sale of Harlem preferred this morning at 50 per cent, but between the boards 52% per cent was effered for a large lot without finding sellers. The company report that there may be a resumption of cividends on the preferred stock on the 1st of January next. This has created a demand for it in the market. The best purchase of the issues of this company, beyond all question, is the second morigage bonds. The pre-ferred stock, of ceurse, comes after the bonds, and, as far as security goes, the bonds have much the advantage. If the preferred stock is worth 52% per cent the several mortgage bonds secured by the first lien in real estate valued at the full amount, are certainly a desirable investment at current prices. Cieveland and Toledo was in demand, and the sales were quite large. It was well sustained at Saturday's prices. There are plenty of buyers on time, their own option, at one and two per cent above cash prices. The read is doing a good business. The receipts n April amounted to \$130,229, against \$102,810 for the same month last year, showing an increase of \$27,419 for the month this year. This is full up to the estimate.

After the adjournment of the board the following

	Triet the soloniament of the posts the tonos.
	sales of binds and stocks were made at auction by A.
	Nicolay:-
	\$35.000 Breekerridge Coal Co., per certif. of \$7,000.33 \$1,221 Idinois Internal Improvement

stocks will take place to-morrow, Tuesday, at half-pas 12 o'clock, at the Merchants' Exchange.

At the second board there was not much change in the

market. Prices were well maintained. Erie Railroad closed at 56% a 56% per cent, firm. The receipts of this road in April amount to \$667 000. The earnings will be more than \$600,000, against \$517,000 for the same month last year. The receipts thus far in May have averaged \$33,000 per day, and the prospect is very flattering for a large business. In May last year the earnings were \$461,894, averaging less than \$18,000 per day. The earnings of the Eric Company in April this year will be nearly equal to those of the New York Central Company in the same month last year. It is our impression that the per centincrease in the gross and net earnings of the Erie Com-pany this year will be much larger than the New York Central. The low prices ruling for breadstuffs and other produce will throw a large portion of that which heretofore the New York Central Company has obtained, upon the Erie canal, and the revenue of the Central Railroad is likely to be seriously affected by this loss of business. We notice a sale this afternoon of a small lot of Wisconsin Lake Shore Railroad at 72 per cent, cash. The gross earnings of this road in the first four months of the present fiscal year have been far in advance of the com-pany's estimates, and were then sufficient to guarantee dividend in July of five per cent. This company does a very large passenger business, which is admitted to be the most prefitable for a railroad. Every road conthe most profitable for a railroad. Every road con-structed in Wisconsin, terminating on Lake Michigan, a must act as a feeder to the Lake Shore line. As the cities along the western shore of Lake Michigan increase in population and business, the local traffic of the Lake line must increase. We are now within sixty days of a dirifierd, and five per cent taken off the present market price will put the stock at 67 per cent, low enough, in our opinion, for a permanent ten per cent civilend pay-ing security.

The steamship Arabia from Boston for Livernool co-

The steamship Arabia, from Boston for Liverpool, or Wednesday, will take out about \$100,000 in specie. There hes not been much demand yet for exchange. Sterling was not so firm, and drawers were not disposed to abate

a fraction in their rates.
The Assistant Tressurer reports to-day as follows:-
Paid on Treasury account \$200,229 Received on Treasury account 148,314 Belance on Ireasury account 9,466,963 Faid on disbursing checks 82,382
The warrants entered at the Treasury Department

 The Circular of De Coppet & Co., prepared for transmission by the steamship Arabia, from Boston for Livernaments
 1,387 20

mission by the steamship Arabia, from Boston for Liver-pool, on Wednesday. the 7th inst., gives the following review of the stock market during the past week:— In State stocks there has been a moderate degree of activity in Indiana 5% at 1g advance, and in Virginia 6% and Missourt 5% at a signa decline. Some Louisiana 6% have been done at 1 per cent advance. Indity and county bonds the business was most limit-ed.

ed.

In ratircad bonds, transacted at private sale, we have nothing of note to report. At the Stock, Exchange the business was mail, with the exception of Ridnois Central construction, which have declined in per cent. There have been a lew sales of Eris 72, 1871, without variations, and of furre flaute and Alton second mortgage at a slight dealing.

tions, and of ferre figure and Alton second mortgage at a slight decline.

In railroad stocks fluctuations have been large and sudden, resulting in a general fail. The most active ones have been here, Reading, Chizago and Rock Island, Cleveland and Fittsburg, Michigan Southern and Central, and New York Central. The two first were pretty steady. The others fluctuated largely. Panama, which had failen the previous week on the news of damage caused by a riot, has again advanced.

Money has been in active demand at 7 per cent for leans on call. Bates for business paper tend upwards. We still quote them at 8 a 10 per cent.

Exchanges on Europe are not quite so firm as last week. London, 109% a 110; Paris, 5-16 kg.

The annexed statement exhibits the average daily movement in the leading departments of the banks of this city during the week preceding Saturday morning, May

The returns for the last week exhibit the following charges in the aggregates, compared with those previous

Leans and discounts, a decrease of \$212.902 bycele, a decrease of. 252.630
Circulation, an increase of 469,013
Deposits, an increase of (rominally) 3,188,730
Deposits, a decrease of (actually) 1,200,008
The actual difference in the aggregates of the leading departments dees not amount to much. In loans and

spec'e the decrease is only to a moderate extent. In de-posite the fluctuations have been of a more important character. The aggregates of this department in the above comparative returns are frequently very far out of the way in showing the true result. It appears by the returns for last week that there had been an increase in the depesits of more than three millions of dollars, while, in fact, there was a decrease of more than a million. The amount of specie in the banks and in the Sub Treasury on Saturday, was \$22,548,095, an aggregate larger

ADVERTISEMENTS RENEWED EVERY DAY.

The eleganty written historical romance, entitled
The eleganty written historical romance, entitled
The YOUTH OF THE OLD DOMINION,
Is now complete and ready for sale. No one can read this
most graphic pleture of the early days of Virginis, without feeling that capt John Smith and his party ware men of stern
sun'; ard also that the rea and caughters of the forest with
whom they came in contact, among whom were Powhatan,
Pecahorata, Onichancanough, and many others of great celebrity, were no mean representatives of the red mun. To the
student of history the early days of the infant republic will
ever be days of marked interest; and when to the simple details of historical facts are added the flowing drapery with
which the elegant ard olssaic diction of Mr. Hopkina has invested them, history becomes as facinating as the most brilliant
romance.

Published in one elegant 12mo volume, price \$1, by JOHN P. JEWETT & CO., 117 Washington street, Boston. For sale by all booksellers
